

THURSDAY **A CLOSE SHAVE**

London gents seeking a decadent barber shop experience should swagger to Fitzrovia this week where Sharps will formally launch its latest men's grooming experience. Focusing on high-quality old school grooming for the contemporary chap, Sharps offers wet-shaves, moustache trims and facial hair TLC in a luxurious retro setting. The new shop – located on Windmill Street – will also contain a fully functioning barista bar and a New York style deli. Nice. (sharpsbarbers.com)
